Safety is Not Just WHMIS

As a safety professional there is nothing more frustrating (and upsetting) than hearing someone tell you they have a health and safety program and, in the end, they basically just train on WHMIS.

Wellness Talk: The Best Choices are Usually the Hard Ones

"No Pain, No Gain" is a common saying in the sporting world

and when referring to healthy objectives like exercise regimes, but it is really applicable throughout our lives. Standing up to a bully, changing our habits, putting in extra hours to accomplish something amazing, are all examples of choices that don't come easily.

Tech Talk: Software Development Feedback

One of the hardest things for companies developing software is to get customer feedback. Most times we only hear complaints or when something is broken. Although this is great information to know so that we are able to fix and strength what was broken, but it doesn't lead us forward in providing better solutions.

Click [here](#) to learn about the different types of software development feedback and how you can help.

New Resources Available

Each month we provide you with great resources to use in your workplace. Click the links below to download them. *For our Safety Groups Members, as always, you can log into your resource library to gain access to these at any time.*
